

# ALL-OPTIFLOW®

Universal progressing cavity pump  
with the lowest total costs (TCO)

upto  
15%

MAINTENANCE  
COSTS REDUCED

upto  
15%

ENERGY COSTS  
REDUCED

- Higher power density with innovative 1/2-geometry pumping elements
- Rotors with special contoured, smoothed surface and minimal adhesion and friction losses
- Shaft seal with very small diameter and up to 50% lower friction loss
- Stators with uniform clamping and special scaled, facet-like surface
