

Over 30 Years of Excellence Driving the Downhole Industry

- Robust
- Aerospace Quality
- Slickline/Wireline applications

Custom Gearmotors

High-torque capacity gearmotors for limited-space applications:

- 600 in-lbs in a 1.50" diameter package
- 1300 in-lbs in a 2.25" diameter package
- 3200 in-lbs in a 3.25" diameter package
- +300°F (150°C) continuous operating temperature
- +400°F (200°C) intermittent operating temperature

Manufacturing precision fractional horsepower DC motors, gearmotors and brakemotors.

CIRCOR Aerospace & Defense has a wide selection of existing designs and can select a motor from its standard line of DC units, or design and build a custom unit to meet unique requirements.
